Free for 60 days

Let guests see your place, and your free dates.

Complete your profile in a few minutes. Guests on WeskusLocal get photos, amenities, an availability calendar and a direct line to you on WhatsApp.

See how it works

Your personal link arrives by WhatsApp. No payment details asked.

Your profile, top to bottom
Gallery of up to 10 photos, rooms and amenities

Live availability calendar
Booked dates show as blocked and update on their own

Enquiries land on your WhatsApp
Guests pick dates and the request reaches you as it happens

Sample profile. Your own photos, prices and details go in the same places.

What your profile can show

PHOTOS

A gallery that sells the stay

Upload up to 10 photos from your phone. The first one becomes your cover and the share picture.

DETAILS

Sleeps, rooms and amenities

Tick what you offer: pool, braai, Wi-Fi, sea view, pet friendly and more. Guests filter on these.

TRIAL FEATURE

Live availability calendar

Paste your calendar link from Google Calendar, Airbnb or Booking.com. Taken dates show as blocked and update on their own.

TRIAL FEATURE

Enquiries straight to your WhatsApp

Guests pick dates and send a request. It lands on your business WhatsApp for bookings and enquiries as it happens.

Three steps

1. Open your link
We send you a private link for your listing.

2. Fill in the form
Photos, rooms, amenities, WhatsApp number and your calendar link (see below). Takes about 5 minutes.

3. You are live
Your richer profile shows straight away and your 60 days start.

Link your availability calendar

Paste one calendar link in your form and we show your booked dates on your profile. Only the dates are read, never the event names or details. We refresh every 3 hours, so a new booking shows within a few hours, not instantly.

Good to know: every event on that calendar blocks its dates, so use a calendar that only holds this property's bookings. The link must open without signing in.

WORKS

Google Calendar

On a computer, open Settings, pick your calendar, then Integrate calendar and copy the **Secret address in iCal format**. It ends in .ics and does not make your calendar public.

WORKS

Airbnb

Calendar, then Availability settings, Connect calendars, Export calendar. Copy the link it gives you.

WORKS

Booking.com

In the Extranet open Rates & Availability, Calendar, Sync calendars, then Export calendar. Copy the link.

WORKS

Other booking systems

Any booking system that offers an **iCal** or calendar export link can be used. Look for “iCal”, “export calendar” or “calendar sync” in its settings. Menu names can differ slightly.

USUALLY WORKS

Outlook and Apple Calendar

Publish the calendar and copy its ICS link. If the link starts with webcal://, change that to https:// before pasting.

DOES NOT WORK

Pages that need a login

A link that opens a normal web page, a screenshot, or an invite link will not work. The link must be the calendar file itself (an iCal or .ics link) that opens without signing in.

Free and trial, side by side

What guests and you get	Free	60-day trial
Listing with photos, details and amenities	✓	✓
Enquiry popup with dates	✓	✓
How enquiries reach you	We pass them on by email	**Instant on WhatsApp**
Availability calendar	–	✓

After 60 days the listing returns to Free unless you decide to keep the extras.

Ready when you are

Your private link is sent by WhatsApp. Questions? Email info@weskuslocal.co.za.
